

SINGLE MALT WHISKY

Whisky
51,5%

Description:

This single malt is a limited edition made from different types of malt, some of which have been roasted relatively heavily.

We produced it in our garage in Schwanberg. The different types of malt were individually mashed, fermented, distilled and stored in barrels. The different malts were then blended to create a perfect whole.

The single malt reflects the lightly roasted mild components with their sweet, malty, cereal notes as well as the more heavily roasted, slightly bitter notes of coffee and cocoa, but also the smoky notes of the peated component.

At 51.5 vol%, it has the ideal alcohol content to bring all these nuances to the palate perfectly. It also impresses with its enormous complexity and long-lasting finish.

Nose:

Fine smoky aromas, malty and cereal, vanilla, caramel, banana, fruity, strong woody notes, subtly peaty, coffee

Palate:

bitter chocolate, coffee, vanilla, banana, strong smoky flavours, malty, dried fruit, subtly peaty, warming, long-lasting finish
